<http://internet2.trincoll.edu/facProfiles/Default.aspx?fid=1004332>
Teach "Health Policy," "Bioethics," "Drug Policy," "Infectious Diseases and Public Policy," "Emerging Biotechnologies and Public Policy," "Happiness," and "Research Methods." Manage graduate student research and thesis projects.

Key Skills

Communication Skills My writing style is clear and concise, whether it is writing a memo, an essay or a book. Between twenty five years experience teaching graduate and undergraduate courses, ten years as a radio talk show host, and extensive experience speaking to diverse audiences, I am a very comfortable oral communicator.

Leadership and Teamwork Having always sought out and held many positions of leadership, from editor of a university newspaper to executive director of two non-profit organizations, I have a developed capacity for leadership and collegial teamwork.

Statistical Analysis and Data Management I conducted my first survey as a high school journalist, and have been conducting and analyzing survey data since then. I am a long time user of Excel and Access, and the statistical analysis tool SPSS.

Environmental Monitoring and Synthetic Scenario Creation I am a continual environmental scanner, using a variety of online sources, and a skilled generator of synthetic planning scenarios.

Entrepreneurship My first business was a computer dating service which I started as a sophomore in college. I have generated consulting employment through my home business, Changesurfer Consulting, since 1994. Since 2004, when I founded the nonprofit Institute for Ethics and Emerging Technologies, I have organized five successful conferences and seminars.

Web Design and Social Media Marketing I designed my first website in 1993 and have been webmaster for half dozen websites since then. I have used email, blogs, video, audio, Facebook, LinkedIn, Second Life and Twitter to promote events and build campaigns.

Previous Employment

Project Coordinator, Banner Implementation, Eastern Connecticut State Univ., Willimantic, CT Assisted with the implementation of a multi-campus information management system.	July '99 - Aug '99
